

What is the HABARI?

The HABARI magazine has been published regularly since 1999 as a quarterly magazine of the Tanzania-Network.de e.V. (www.tanzania-network.de). With a current circulation of 400 print versions and about 50 digital subscriptions. Developed by a voluntary editorial team, each issue of the magazine is dedicated to a specific topic with relevance to Tanzania, which is deepened by contributions from different perspectives. It also serves as a platform for networking and information exchange among people interested in Tanzania, partnership groups and projects.

Target groups:

With our HABARI, we want to reach people from different contexts who are interested in the realities of life in Tanzania as well as in development policy issues in general. We would like to give our target groups a differentiated perspective on Tanzania and provide them with the relevant knowledge on development policy issues and promote their understanding of global interrelationships. This new knowledge and a possible change of perspective can have a positive effect on the private and professional relationships that our target groups have with Tanzania.
